### DETAILED ACTION

1. Claim 44 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Morgan (4,635,096).

Morgan discloses in figure 1, a system for generating one or more wave form output streams (22), including a memory (38) for storing a plurality of waveform segments, a plurality of queues (26-32) for receiving waveforms segments form the memory, and one or more output interfaces (24,34, RAM OUT) for reading waveform segments from the queues as claimed.

2. Claims 1-43 are allowed.

3. Applicant's arguments filed on 11/06/2004 have been fully considered but they are not persuasive.

It is respectfully submitted that RAMs 26-32 in figure 1 of Morgan clearly can be seen as the claimed plurality of queues since each of the RAMs is coupled to receive waveform segments from the memory (38), and configured to store a series of waveform segments for a respective one of the waveform output streams (22) as claimed. Further, the combined of address signal (24), switch 34, and RAM OUT in figure 1 of Morgan clearly read on the claimed one or more output interfaces, since they are coupled to read waveform segments from the waveform segment queues (the RAMs 26-32) for a respective one of the waveform data streams as claimed. The referral number 324 in first rejection is an obvious typo error and should be recognized by applicant as the address signal 24 since the rejection is referenced to Fig. 1 of

Art Unit: 2193

Morgan and in which there is no referral number 324 but the address signal (24) and switch (34) which are used to read out waveform segments for a respective one of the waveform data streams.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
